INTRODUCTION

The board of education requires high standards of personal conduct from each student to promote respect for the rights of others and to accomplish the purposes of the schools. The board also requires compliance with established standards and rules of the district and the laws of the community, state and nation. It is the responsibility of each student to behave in a manner that does not threaten, interfere with, or deprive other students of their right to an education.

The central purpose of the school system is to educate each student to the highest level possible. To support the success of the educational program, the board directs employees to hold each student accountable to code standards in a fair manner. Compliance with the standards is necessary to provide:

- Orderly operation of the schools,
- A safe environment for students, district employees and visitors to the schools,
- Opportunities for students to achieve at a high academic level in a productive learning environment,
- Assistance for students at risk of failure or of engaging in disruptive behavior,
- Regular attendance of students, and
- Protection of property.

This Code applies to **all** students in the District while at school, on their way to and from school, while on the bus or other District vehicle, and while they are participating in school-sponsored trips and activities. The superintendent/designee is responsible for its implementation and application throughout the District. The principal is responsible for administration and implementation of this Code within his/her school in a uniform and fair manner without partiality or discrimination. Each school/council must select and implement appropriate discipline and classroom management techniques necessary to carry out this Code and shall provide a list of the school's rules and discipline procedures in the school handbook.

Teachers and other instructional personnel are responsible for administering Code standards in the classroom, halls, and other duty assignment locations. The board shall establish a process for a two-way communication system for teachers and other employees to notify a principal, supervisor, or other administrator of an existing emergency.

The principal/designee shall provide appropriate arrangements for all non-English speaking, blind, deaf, or non-readers to become familiar with the rights and responsibilities as specified in this code.

This code establishes minimum behavior standards. Recognizing that each school, grade, or class may require special provisions, school councils, administrators, and teachers have full authority to make rules to enforce these standards in keeping with their areas of responsibility.

DISTRICT VISION: “Successful – Now and Beyond”

Every student will be successful beyond his greatest expectations, now and in the future.

DISTRICT MISSION: “Learners for Life”

The mission of Calloway County Schools is to empower all students academically, socially, and personally to be lifelong learners capable of thinking, solving problems, and serving as responsible citizens ready to meet the challenges for tomorrow.

DISTRICT BELIEFS

- Providing challenging educational opportunities in a safe environment is the District's top priority.
- The board and the schools will make program decisions on the basis of student needs.
- School success results in future success.
- Schools are responsible for creating an environment in which learners can and do succeed.
- The District will not tolerate incompetent performance, mediocre effort, or harmful behavior by students or staff.
- Students, families, educators, and the community share the responsibility for student success and for providing safe schools to facilitate academic achievement.
- Teachers/school officials should involve parents at the earliest stage when a student shows signs of serious behavior problems.

REQUIRED STANDARDS

The board expects employees, students, parents/guardians and others associated with the schools to apply the following standards in a reasonable and fair manner:

- A. To promote the full implementation of conduct standards and maximize safety in the school environment, the board requires all employees to make supervision of all students at all school activities a top priority among their assigned duties. The younger the child, the greater the need for adult guidance and protection.
- B. A professionally planned and positive school atmosphere is necessary for academic progress and a safe environment. Therefore, students shall not interfere with the orderly environment of the school or school activity.
- C. Regular and punctual school attendance is both a privilege and a responsibility of the student. Good attendance is necessary to satisfactory progress and high academic achievement.
- D. Students shall exercise self-control as required by the particular situation and in keeping with school and district rules or be subject to removal from the regular classroom setting or transportation system.
- E. School property belongs to the community and the state. It must be protected and preserved for educational and community use. Therefore, students shall respect school property and the property of others.
- F. Students shall work cooperatively and productively with each other and with school personnel in a manner that is consistent with standards of respect and courtesy.

APPLICATION OF CODE

In order for any Code of Acceptable Behavior and Discipline to be implemented equitably and effectively, it must provide direction as well as protection for the students governed by the code. The principal or assistant principal may suspend students for violation of school rules pursuant to statute KRS 158.150. Suspension of primary school students shall be considered only in exceptional cases where there are safety issues for the child or others.
A suspended student will be prohibited from making up and receiving credit for daily work, daily quizzes or projects that are assigned and due during the period of suspension. They will receive credit for and allowed to (1) make up major work assignments made before the suspension and due during the suspension and (2) complete major tests and projects that are due or take place during the suspension, but which cover material that was addressed before the suspension began;
14. An individual school may establish a policy for additional disciplinary options for administrators. Such a policy will be included in a school's student handbook;
15. Students may be referred to the court or appropriate legal services;
16. Referral to another educational setting;
17. The principal or assistant principal may refer a student to the superintendent for a hearing before the board of education for possible expulsion.

D. Bus Drivers

Riding the school bus is a privilege. Supervision and discipline of pupils on buses is covered in 702 KAR 5:030 and 702 KAR 5:080 Section 18:

1. Drivers are in charge of their buses, and their first responsibility shall be the safe transportation of their passengers. In the event that one or more pupils are behaving in a manner that endangers the safety of other pupils on the bus, the driver shall call or radio for immediate assistance from the district transportation director, the principal of the school where the pupil(s) attends, a district administrator, and/or law enforcement. Ordering or ejecting a student from the bus shall be done only in the most extreme circumstances due to threatening or violent behavior. The driver shall notify the immediate supervisor who shall notify the appropriate district authorities, who shall subsequently notify the student's parent or legal guardian.
2. The principal or the person or persons designated by the board of education shall be responsible for the discipline of the pupils who ride the school buses to and from school and shall assist the school bus driver with discipline problems that arise on the bus when the school bus driver has made the proper report on the school discipline problem either in person or in writing;
3. Should a pupil create a serious safety or discipline problem on the school bus or persist in creating discipline problems on the school bus after having been reported by the school bus driver to the principal or to the person or persons designated by the board of education and warned or disciplined, the principal or the person or persons designated by the board of education shall forbid the pupil to ride the school bus until written permission for the pupil to again ride the school bus has been given to the school bus driver by the person or persons designated by the board of education to grant such permission;

4. Drivers may take necessary action in emergencies to protect their own person or property or the persons or property of those in their care;
5. Forms provided by the board and signed by the principal shall be given to bus drivers informing them of disciplinary action taken.

CONDUCT ON SCHOOL BUS

(References board policies 09.226, 06.33, 06.34)

1. Pupils shall be at their bus stop five (5) minutes before the bus is scheduled to arrive. The bus cannot wait beyond its regular schedule for late individuals.
2. Pupils shall wait at their assigned bus stop off the roadway and shall remain there until the driver has stopped the bus, opened the entrance door, and signaled the pupils to enter the bus.
3. Pupils shall not cross the roadway when entering the school bus until signaled to do so by the bus driver.
4. When students are required to cross the roadway when entering or leaving the school bus, crossings shall be made in front of the bus. Pupils shall cross approximately ten (10) feet in front of the bus in order that they may be seen by the bus driver.
5. When pupils enter the bus, they shall proceed directly to a seat.
6. Pupils shall remain seated until the bus has come to a complete stop.
7. Pupils shall not extend their arms, legs, heads, or any body part out the bus windows.
8. Pupils shall not change from one seat to another while the bus is in motion unless given permission by the bus driver. Drivers and school staff may take reasonable action to promote student safety and discipline.
9. Pupils shall not create noise on the bus to the extent that it might distract the bus driver or to the extent that it might interfere with the driver's ability to hear the signals of emergency vehicles or an approaching train.
10. Pupils shall not electronically broadcast any audible sound or music by using external speakers or by any other means. A student may listen to music on their own personal handheld device, with the bus driver's permission, only if using personal headphones at a volume low enough that others cannot hear the headphones. Devices must be put away before getting on/off the bus.
11. Pupils shall not wear clothing or backpacks with loose strings or straps that may become entangled in the bus handrail or exit door mechanism.
12. The bus driver shall discharge pupils at their regularly scheduled stops only, except with written authorization from the principal to discharge a pupil at another location. The principal shall have authorization from a child's parents before permitting discharge at a location other than the regular stop. The note must be signed by the child's parent/guardian and their principal. Students without the required note with both signatures will be directed to ride their home bus or go into the school to contact a parent/guardian to come pick them up.
13. Bus drivers shall promptly report any violation of district policy or school rules to the principal.
14. The principal is authorized to withhold bus-riding privileges up to a maximum of twenty (20) school days per occurrence in the case of habitual or serious conduct violations. The principal shall notify the parents in cases where bus-riding privileges have been withheld. The superintendent or the superintendent's designee may withhold bus-riding privileges up to the remainder of the school year.
15. Students with special needs who exhibit inappropriate conduct shall be managed in accordance with their Individual Education Plan (IEP) and/or 504 Plan and the legal obligations and standards adopted by the board.
16. If the parent, guardian, or authorized responsible adult is not available to accept the student(s) upon delivery, students under nine (9) years of age will be returned to the appropriate school.
17. While on a school bus or at the bus stop, students shall adhere to all rules and responsibilities listed earlier in this document under the section Application of Code > Student Conduct. Expectations for positive behavior are the same on the bus as in the school building.

TELECOMMUNICATIONS DEVICES

(KRS 158.165, board policy 09.4261)

POSSESSION AND USE

While on school property or while attending school-sponsored or school-related activities, whether on or off school property, students shall be permitted to possess and use personal telecommunications devices¹ and other related electronic devices, provided they observe the following conditions:

1. Devices shall not be used in a manner that disrupts the educational process, including, but not limited to, use that poses a threat to academic integrity, such as cheating, violates confidentiality or privacy rights of another individual, is profane, indecent, or obscene, constitutes or promotes illegal activity or activity in violation of school rules, or constitutes or promotes sending, sharing, or possessing sexually explicit messages, photographs, or images using any electronic device.

These restrictions shall not be interpreted to prohibit material protected under the state or federal constitutions where such material does not otherwise materially or substantially disrupt the education process or intrude upon the rights of others.

2. Devices shall not be used during instructional time unless authorized by a school employee unless and emergency arises that involves imminent physical danger.
3. When students violate prohibitions of this policy, they shall be subject to disciplinary action, including losing the privilege of bringing the device onto school property and being reported to their parent/guardian. A violation also may result in a report being made to law enforcement. In addition, an administrator may confiscate the device, which shall only be returned to the student's parent/guardian.
4. Students are responsible for keeping up with devices they bring to school. The District shall not be responsible for loss, theft, or destruction of devices brought onto school property.
5. Students shall comply with any additional rules developed by the school concerning appropriate use of telecommunication or other electronic devices.
6. Students shall not utilize a telecommunication or similar electronic device in a manner that would violate the District's Responsible Use Policy or procedures or its *Code of Acceptable Behavior and Discipline*.

Reference

¹KRS 158.165 "Personal telecommunications device" means a device that emits an audible signal, vibrates, displays a message, or otherwise summons or delivers a communication to the possessor, including, but not limited to, a paging device and a cellular telephone.

In addition, when they have reasonable belief that a violation has taken place, the principal shall immediately report to law enforcement officials when an act has occurred on school property or at a school-sponsored function that involves student possession of a firearm in violation of the law or an assault involving the use of a weapon.

Violations by visitors shall be reported to a law enforcement agency.

B. Federal Requirements

The penalty for students bringing a firearm or other deadly weapon, destructive device, or booby trap device to school or onto the school campus/property under jurisdiction of the District shall be expulsion for a minimum of twelve (12) months under board policy 09.435. 4. billy, nightstick or club;
5. blackjack or slapjack;
6. nunchaku karate sticks;
7. shuriken or death star; or

F. Enforcement

In the enforcement of this policy, principals may authorize, if they have reasonable suspicion, searches in compliance with board policy 09.436.

TERRORISTIC THREATS

(KRS 508.075, 508.080, 508.080 and board policy 05.43)

Terroristic threats that cause disruption to the educational environment are reported to law enforcement. The District may seek criminal or juvenile charges, as applicable, against the alleged perpetrators, subject an offending student to disciplinary sanctions up to and including expulsion, request restitution in connection with juvenile or criminal proceedings and/or offer a reward for information leading to an arrest or conviction. Key statutes are referenced below.

KRS 508.075 - Terroristic threatening in the first degree. Applies to a person who intentionally makes false statements that he, she, or another person has placed a weapon of mass destruction on school property, property that is the site of a school function, or a school vehicle. This is a Class C felony.

KRS 508.078 - Terroristic threatening in the second degree. Applies to a person who threatens to commit any act likely to result in death or serious physical injury to students, teachers, staff, or volunteers of a public or private school. It also applies to a person who makes false statement by any means, including by electronic communication, for the purpose of causing evacuation of a school building, school property, or school sanctioned event; causing cancellation of school classes or school sanctioned activities, or creating fear of serious bodily harm among students, parents, or school personnel. This is a Class D felony.

KRS 508.080 - Terroristic threatening in the third degree. Applies to a person who threatens to commit any crime likely to result in death or serious physical injury to another person or likely to result in substantial property damage to another person OR who intentionally makes false statements for purposes of causing the evacuation of a building, place of assembly, or facility of public transportation. This is a Class A misdemeanor.

BULLYING/HAZING

(KRS 158.148 and board policy 09.422)

In order to effectively participate in the democratic process as adults, students must learn to respect the rights of others and to interact with them in a civil manner. Therefore, students are required to speak and behave in a civil manner toward students, staff, and visitors to the schools.

BULLYING AND OTHER PROHIBITED BEHAVIOR

The use of lewd, profane, or vulgar language is prohibited. In addition, students shall not engage in behaviors such as hazing, bullying, menacing, taunting, intimidating, verbal or physical abuse of others, or other threatening behavior. This policy extends to any/all student language or behavior including, but not limited to, the use of electronic or online methods. Such behavior is disruptive of the educational process and interferes with the ability of other students to take advantage of the educational opportunities offered.

BULLYING DEFINED

Bullying refers to any intentional act by a student or groups of students directed against another student to ridicule, humiliate, or intimidate the other student while on school premises, on school-sponsored transportation, or at a school sponsored activity. Bullying includes any unwanted verbal, physical, or social behavior among students that involves a real or perceived power imbalance and is repeated against the same student over time or has the potential to be repeated.

This definition shall not be interpreted to prohibit civil exchange of opinions or debate or cultural practices protected under the state or federal Constitution where the opinion expressed does not otherwise materially or substantially disrupt the education process.

REPORTING BULLYING

Students who believe they have been a victim of bullying or who have observed other students being bullied shall, as soon as reasonably practicable, report it to any teacher, counselor, or administrator in their school (or any other adult in charge such as their coach or bus driver).

Employees are expected to take reasonable and prudent action in situations involving student welfare and safety, including intervening and reporting to the principal or to their immediate supervisor those situations that threaten, harass, or endanger the safety of students, other staff members, or visitors to the school or District. Such instances shall include, but are not limited to, bullying or hazing of students and harassment/discrimination of staff, students, or visitors by any party.

RETALIATION PROHIBITED

No one shall retaliate against a student because he or she reports bullying or hazing, or assists or participates in an investigation, proceeding, or hearing regarding bullying or hazing.

CONSEQUENCES FOR BULLYING

See section on Discipline and Consequences of Violating the Code. In applicable cases, bullying and hazing will be reported to appropriate law enforcement authorities.

Also see sections on Harassment/Discrimination and Student Reporting of Code Violations.

HARASSMENT/DISCRIMINATION (References board policies 09.42811, 03.162, 03.262)

A. DEFINITION

Harassment/Discrimination is unlawful behavior based on race, color, national origin, age, religion, sex or disability that is sufficiently severe, pervasive, or objectively offensive that it adversely affects a student's education or creates a hostile or abusive educational environment.

Harassment/Discrimination of employees is unlawful behavior based on the race, color, national origin, age, religion, sex, genetic information or disability of an employee involving intimidation by threats of or actual physical violence; the creation, by whatever means, of a climate of hostility or intimidation, or the use of language, conduct, or symbols in such manner as to be commonly understood to convey hatred or prejudice.

B. PROHIBITION

Harassment/Discrimination is prohibited at all times on school property and off school grounds during school-sponsored activities. This prohibition also applies to visitors to the school who may come into contact with employees and students.

District staff shall provide for a prompt and equitable resolution of complaints concerning harassment/discrimination.

C. DISCIPLINARY ACTION

Students who engage in harassment/discrimination of an employee or another student on the basis of race, color, national origin, age, religion, sex or disability shall be subject to disciplinary action, including but not limited to suspension and expulsion.

D. GUIDELINES

Students who believe they have been a victim of an act of harassment/discrimination or who have observed incidents involving other students that they believe to be an act of harassment/discrimination shall, as soon as reasonably practicable, report it. In each school building, the principal and/or designee is the person responsible for receiving reports of harassment/discrimination

E. NOTIFICATION

Within twenty-four (24) hours of receiving a serious allegation of harassment/discrimination, District personnel shall attempt to notify parents of both student victims and students who have been accused of harassment/discrimination.

F. PROHIBITED CONDUCT

Examples of conduct and/or actions that could be considered a violation of this policy include, but are not limited to:

1. Any nicknames, slurs, stories, jokes, written materials or pictures that are lewd, vulgar, or profane and relate to any examples of the protected categories listed in the definition of harassment/discrimination contained in this policy;
2. Unwanted touching, sexual advances, requests for sexual favors, and spreading sexual rumors;
3. Instances involving sexual violence;
4. Causing a student to believe that he or she must submit to unwelcome sexual conduct in order to participate in a school program or activity or that an educational decision will be based on whether or not the student submits to unwelcome sexual conduct;
5. Implied or overt threats of physical violence or acts of aggression or assault based on any of the protected categories;
6. Seeking to involve students with disabilities in antisocial, dangerous or criminal activity where the students, because of disability, are unable to comprehend fully or consent to the activity; and
7. Destroying or damaging an individual's property based on any of the protected categories.

G. CONFIDENTIALITY

District employees involved in the investigation of complaints shall respect, as much as possible, the privacy and anonymity of both victims and persons accused of violations.

H. RETALIATION PROHIBITED

No one shall retaliate against an employee or student because he or she files a written grievance, assists or participates in an investigation, proceeding, or hearing regarding the charge of harassment/discrimination of an individual or because he or she has opposed language or conduct that violates this policy.

Upon the resolution of allegations, the superintendent shall take steps to protect employees and students against retaliation.

I. FALSE COMPLAINTS

Deliberately false or malicious complaints of harassment/discrimination may result in disciplinary action taken against the complainant.

CRIMINAL VIOLATIONS

Students are accountable to their schools in their roles as students as well as to the law in their capacities as citizens. The criminal laws of the Commonwealth of Kentucky and of the federal government apply to the conduct of all persons on school property. Violations should be dealt with according to these laws and local school board policy.

Offenses which result in violence to another person or property or which pose a direct threat to the safety of others in the school are clearly criminal offenses.

Recommendations:

- A. Due to the seriousness of criminal offenses, the student's continued presence in school would constitute a threat to other persons and would have a negative impact on the general morale of the school. Verified criminal misconduct may result in the immediate removal of the student from the school, pending a hearing before the board in accordance with KRS 158.150.
- B. Schools should report these offenses to the appropriate law enforcement agencies and cooperate with these agencies in investigating and prosecuting the offender. In cases of assault and or battery or abuse of a student or school employee, it would be a personal option to press charges. The district shall give full support to the aggrieved individual.
- C. A student charged with criminal misconduct should be given the full due process hearing before the board, which should take prompt and appropriate action. Since disciplinary action by the school in criminal matters does not constitute "double jeopardy", the board need not await the disposition of the hearing or trial.

REPORTS TO LAW ENFORCEMENT OFFICIALS

(KRS 158.155)

When they have reasonable belief that certain violations have taken place, principals are required by law to immediately report them to law enforcement officials. Violations on school property or at a school-sponsored function requiring a report to the law enforcement officials include:

- assault resulting in serious physical injury;
- a sexual offense;
- kidnapping;
- assault involving the use of a weapon;
- possession of a firearm in violation of the law;
- possession of a controlled substance in violation of the law;
- damage to school property

In addition to violations of this code, students may also be charged with criminal violations.

REPEATED INFRACTIONS

Every school will have methods of dealing with the problem of repeated infractions. Often, these infractions are minor in nature, yet they consume time and energy of the teacher or administrator who deals with the situation.

Traditionally, administrators have responded to this situation in one of two ways. In some cases, they may apply larger or longer doses of the same disciplinary action. In other cases, the administrator may apply penalties which may be ineffectual or penalties so severe that they cease to bear any relationship to the nature of the infraction.

Creative alternative strategies need to be developed. A series of varied consequences should be used rather than the same response over and over, including a referral to other district services and resources, if deemed appropriate. If possible, the teacher or administrator should record the nature of the repeated infraction, the disciplinary action applied, and the apparent effectiveness of each method used. This information could be beneficial in several ways. It could be referred to in determining what strategies to use for other infractions and it would supply documentation of the number of alternative strategies that had been used with each student, in case the courts request such information. Additionally, it would be beneficial in developing an individual prevention program designed for those students identified as potential dropouts.

Schools should not overlook the cause of the infraction. Sometimes a simple change in the situation or condition which contributed to the infraction may result in the elimination of a particular undesirable behavior.

Recommendations which may be considered are:

- A. Establish a limit on the number of times a particular disciplinary action will be used with one student;
- B. Develop a series of alternative disciplinary options for each level of severity of infraction;
- C. Provide guidelines to assist teachers as they sequentially apply these options according to the frequency and severity of the infraction;
- D. Develop a behavior intervention plan;
- E. Refer the student for other district services and resources;
- F. Take a student before the board of education for an expulsion hearing for repeated rule infractions and incorrigible behavior.

SEARCH AND SEIZURE

(board policy 09.436)

A. Purpose:

To maintain order and discipline in the schools and at school-sponsored activities and to protect the safety and welfare of students and school personnel. Authorized school personnel reserve the right to conduct a search of a student, locker, book bag, student possessions/belongings or vehicle if they have reasonable suspicion for a search. All students may be subjected to a fixed or handheld electronic screening detector. An Affirmative signal or response from a detector will serve as reasonable suspicion for a more personal search. Such searches may result in seizure of any illegal, unauthorized, or contraband materials discovered in the search.

As used in this policy, the term "unauthorized" means any item dangerous to the health or safety of students or school personnel, disruptive of any lawful function, mission, or process of the school, or any item described as unauthorized in school rules available beforehand to the student. As used in this policy, the term 'student vehicle' means a vehicle over which a student exercises responsibility and/or control on school property or off school property at school sponsored activities. A student who operates or parks a vehicle on school property or attends school-sponsored activities gives implied consent for a search. A student's failure to permit searches and seizures as provided in this policy will be considered grounds for disciplinary action.

B. Personal Searches:

A student's person and or personal effects (e.g. purse, book bag, etc.) may be searched whenever a school administrator or designee has reasonable suspicion to believe that the student is in possession of illegal or unauthorized materials. If a pat-down search of a student's person is conducted, it will be conducted in private by a school official of the same sex and with an adult of the same sex present unless the health or safety of students or school personnel will be endangered by the delay which might be caused by following these procedures.

C. Locker Searches:

Student lockers are school property and remain at all times under the control of the school; however, students are expected to assume full responsibility for the security of their lockers. Periodic general inspections of lockers may be conducted by school authorities for any reason at any time without notice, without student consent, and without a search warrant.

D. Student Vehicles:

Students are permitted to park on school premises as a matter of privilege, not of right. Calloway County school officials reserve the right to search a student vehicle at any time.

E. Seizure of Illegal Materials:

If a properly conducted search yields illegal or contraband materials, such findings shall be turned over to proper legal authorities for ultimate disposition.

F. Breathalyzer or Other Tests:

Local law enforcement officials may administer breathalyzer or other tests at the request of school officials to assist in investigations without prior notification or approval of parents/guardians.

SUSPENSION, EXPULSION and DUE PROCESS

A. Suspension: KRS158.150 and board policy 09.434

In the event a student has to be suspended from school for discipline problems, the following procedure will be used:

1. The student shall be given oral and written notice of the charge or charges against him/her which constitute cause for suspension;
2. The student shall be given an explanation of the evidence of the charge or charges if the student denies them;
3. The student shall be given an opportunity to present his/her own version of the facts relating to the charge or charges;
4. These due process procedures shall precede any suspension unless immediate suspension is essential to protect persons or property or to avoid disruption of the ongoing academic process. In such cases, the due process procedure, as outlined above, shall follow the suspension as soon as practicable, but not later than three (3) school days after the suspension;
5. The student's parent, guardian, or other person having legal custody or control of the student shall be notified by phone (if available) and by certified mail with a written notice of suspension. Written notice will also be sent to the superintendent's office.
6. During the period of suspension, a student is not to appear on school property as well as off school property at school-sponsored activities.

B. Expulsion: KRS158.150 and board policy 09.435

The board of education may expel any pupil from the regular school setting for misconduct, as defined by law, but such action shall not be taken until the parent, guardian, or other person having legal custody or control of the pupil has had an opportunity to have a hearing before the board.

Proceedings before the board shall be conducted in the following manner:

1. The superintendent or administrative official of the Calloway County School District shall give written notice, with documentation of receipt to the parent (s), guardian or other person having legal custody or control of the pupil. The written notice shall contain the following information:
 - a. The reason for the suspension pending the board hearing;
 - b. The charge or charges against the pupil;
 - c. Notice of the time, place and date of a hearing before the board of Education;
 - d. Notice of the right to a hearing before the board of education.
 - e. Notice of right to be represented by counsel;
 - f. Notice of right to bring witnesses or have witnesses subpoenaed to testify before the board; and
 - g. Notice of possible penalty that could be invoked by the board of education.
2. Hearing before the board:
 - a. The student has a right to have the case heard in executive session or a public hearing, which ever the student desires. The reason for holding a hearing in executive session is to protect the name and identity of the student from media exposure; if the hearing is held publicly, the media would have access to the student's name and might publish the student's name in a news item;
 - b. The student has a right to have an attorney present during the hearing and the attorney would have the right to participate in all phases of the hearing;
 - c. During the course of the hearing, the student would have a right to confront the witnesses against the student and a right to cross examine them and ask them any questions which may be relevant to the inquiry;
 - d. The student has a right to testify and present any witnesses on the student's behalf;
 - e. All witnesses who testify in a hearing before the board shall first be placed under oath before their testimony.

The hearing will be conducted in the following manner:

- a. The school system and the student or his/her parents or his/her attorney may make an opening statement if they desire;
- b. If no party desires to make an opening statement, the school system will introduce into evidence all the evidence it has concerning the charge or charges against the student. The student shall have a right to examine any physical evidence and a right to be present during the testimony of witnesses and to cross examine any of the school system's witnesses;
- c. After the school system's evidence has been introduced and witnesses have testified, the witnesses will leave the hearing, but may be recalled by the student or the school system at any time until the hearing is announced closed. Even after the hearing is announced closed, until the board has arrived at its decision and announced its decision in a particular case, either party may request that any witnesses be recalled for further testimony or additional witnesses presented to the board, even after the hearing is closed provided the request is made before a decision is announced in a case;

- d. After the school system has introduced its evidence and its witnesses have testified, the student may testify concerning this matter and present any witnesses the student may have on the student's behalf;
- f. After both parties have presented all of their witnesses and introduced all of their evidence, both sides shall have a right to make closing remarks to the board;
- g. After closing remarks, all witnesses and parties shall be excluded from the hearing save and except counsel for the board, and the board shall deliberate, come out of executive session, go into public session, consider any recommendations of the superintendent, and, upon motion and vote, announce its decision to all parties. The decision of the board, along with the findings of fact and conclusions of law, will be sent by certified mail to the parent (s) and/or legal guardians and/or other person having custody or control of the students.
- h. During the period of expulsion, a student is not to appear on school property as well as off school property at school-sponsored activities.

C. Expulsion – Provision of Educational Services:

In cases of expulsion, provision of educational services will be required unless the board determines, on the record and supported by clear and convincing evidence, that the expelled student poses a threat to the safety of other students or school staff and cannot be placed in a state-funded agency program.

FELONY OFFENSE AGAINST A STUDENT INVESTIGATION and REPORTING
(KRS 158.156)

(1) Any employee of a school or a local board of education who knows or has reasonable cause to believe that a school student has been the victim of a violation of any felony offense specified in KRS Chapter 508* committed by another student while on school premises, on school-sponsored transportation, or at a school-sponsored event shall immediately make an oral or written report to the principal of the school attended by the victim. The principal shall notify the parents, legal guardians, or other persons exercising custodial control or supervision of the student when the student is involved as an alleged victim or alleged perpetrator in an incident reportable under this section. The principal shall file with the local school board and the local law enforcement agency or the Department of Kentucky State Police or the county attorney within forty-eight (48) hours** of the original report a written report containing:

- (a) The names and addresses of the student and his or her parents, legal guardians, or other persons exercising custodial control or supervision;
- (b) The student's age;
- (c) The nature and extent of the violation;
- (d) The name and address of the student allegedly responsible for the violation; and
- (e) Any other information that the principal making the report believes may be helpful in the furtherance of the purpose of this section.

(2) The school district and school personnel will participate in the investigation at the request of the law enforcement agency.

(3) Anyone acting upon reasonable cause in the making of a report required under this section in good faith shall have immunity from any liability, civil or criminal, that might otherwise be incurred or imposed. Any such participant shall have the same immunity with respect to participation in any judicial proceeding resulting from such report or action.

(4) Retaliation is prohibited against a complainant or person because s/he reports an incident for which reporting is required by KRS 158.156, or because s/he assists or participates in any investigation, proceeding, or hearing regarding the violation. The superintendent/designee shall take measures needed to protect persons from such retaliation.

If a law or board violation has occurred, school will report the incident to the Kentucky Department of Education as part of safe school data reporting.

**Note: Felony offenses under KRS Chapter 508 include First Degree Assault, Second Degree Assault, Third Degree Assault, Assault Under Extreme Emotional Disturbance, First Degree Wanton Endangerment, First Degree Terroristic Threatening, Second Degree Terroristic Threatening, First Degree Criminal Abuse, Second Degree Criminal Abuse, First Degree Stalking, Disarming a Police Officer.*

***Note: The principal may use the forty-eight-hour timeframe to investigate the allegations of the initial report. If the principal finds no evidence of a KRS Chapter 508 felony offense, he/she does not have to file a report with the agencies listed above (see Section 1). If the principal is in doubt as to whether there has been a KRS Chapter 508 offense, he/she should consult with the local law enforcement and/or the board attorney.*

USE OF PHYSICAL RESTRAINT AND SECLUSION

(board policy 09. 2212)

A. PHYSICAL RESTRAINT

Use of physical restraint by all school personnel is permitted when a student's behavior poses an imminent danger of physical harm to self or others in clearly unavoidable emergency circumstances. In such situations, staff who have not had core team training may physically restrain students but shall summon core trained personnel as soon as possible. In all situations involving use of physical restraint (including restraint by core trained personnel):

- The student shall be monitored for physical and psychological wellbeing for the duration of the restraint.
- Personnel shall only use the amount of force reasonably believed necessary to protect the student or others from imminent danger of physical harm.

B. SECLUSION

Seclusion may be implemented only if: the student's behavior poses an imminent danger of physical harm to self or others; less restrictive interventions have been ineffective in stopping the imminent danger of physical harm; the student is monitored visually for the duration of the seclusion; and staff are appropriately trained to use seclusion.

Use of physical restraint and seclusion policy and related procedures are designed to promote the safety of all students, school personnel, and visitors. School personnel and parents may contact school principals to access policy and related procedures addressing use of physical restraint and seclusion.

GRIEVANCE PROCEDURES

(board policy 09.4281)

Parents/guardians or students desiring to question actions taken by school personnel may follow this procedure:

- A. If the problem is related to the classroom, the parent/guardian will contact the principal of the school to arrange a conference with the classroom teacher as soon as possible to discuss the problem;
- B. If this conference does not resolve the situation, the teacher and parent will arrange for a conference with the principal and/or designee with a minimum of delay;
- C. If the problem is not related to the classroom, the parent will contact the principal directly;
- D. If none of the above procedures results in a satisfactory solution to the problem, the parent shall state his/her complaint in writing and may request a meeting with the superintendent or his/her designee;
- E. Upon receipt of the written complaint, a meeting will be scheduled with the superintendent or his/her designee, or if appropriate, the School Based Decision-Making Council. During this meeting, either party may present individuals having knowledge relative to the facts involved. The other party will be notified in advance if such additional persons are to be present.
- F. The superintendent or his/her designee or, if appropriate, the School Based Decision-Making Council will advise the complainant in writing by certified mail or actual delivery of the disposition of the complaint within fourteen (14) days after the meeting.

PROCEDURES FOR ANNUAL REVIEW

The board of education requires that all schools review this Code of Acceptable Behavior and Discipline on an annual basis.

- A. The principal of each school may call upon its committee that addresses discipline, behavior, handbook, PTA/PTO or select a special committee consisting of student representatives, parents, teachers, and others to conduct this review during the month of February;
- B. The review group may be charged with reviewing the entire document and with making recommendations for changes in writing to the director of pupil personnel for compilation by the end of February of each school year;
- C. The director of pupil personnel shall compile the results of these reports and submit them to the management team for review during the month of March. The management team is composed of at least two parents, two students, two faculty, two administrators, one representative from the Alternative Instructional Facility staff and one board member invited to serve by the director of pupil personnel or as dictated by state guidelines. The student, parent, teacher and administrative component of this team will consist of at least one representative from each school review committee;
- D. The director of pupil personnel shall submit a summary of actual recommendations from the management team and present same to the superintendent for modification and suggestions by May 30.

- E. The superintendent has directed that the code be posted in each school, with the principal being responsible for seeing that guidance counselors and other personnel discuss its contents with students in a timely and age-appropriate manner. In addition, each school will reference the code in the school's handbook(s). On request, the principal shall provide help for non-English speaking, blind, deaf or non-reading students and parents so that they can have access to the information contained in this code.

NOTICE OF NON-DISCRIMINATION

The Calloway County School System does not discriminate on the basis of race, color, national origin, age, religion, marital status, sex, or disability in employment, programs or activities.

Any person having inquiries concerning the Calloway County School System's compliance with Title IX, Title VI, and Section 504 is directed to contact the Title IX Coordinator, Calloway County Schools, P.O. Box 800, Murray, Kentucky 42071, (270) 762-7300.

NOTIFICATION OF RIGHTS UNDER FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

Calloway County School District (CCSD)

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. These rights are:

- (1) The right to inspect and review the student's education records within 45 days of the day the School receives a request for access.

Parents or eligible students should submit to the school principal a written request that identifies the record(s) they wish to inspect. The School official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

- (2) The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate.

Parents or eligible students may ask the school to amend a record that they believe is inaccurate. They should write the school principal, clearly identify the part of the record they want changed and specify why it is inaccurate. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

- (3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.

The Calloway County School System keeps child and youth records in a secure location in each school and in the central office. Any parent or guardian of a student or any eligible student may challenge the content or accuracy of any material or entries in the student's educational records on the grounds that it is inaccurate, misleading or otherwise in violation of the privacy or other rights of the student. Requests to amend the records are submitted to the principal of your child's school.

For students who have been determined eligible for programs for children and youth with disabilities, educational records will be destroyed at the request of the parent when they are no longer needed to provide educational programs and services. The CCSD may destroy the educational records of a youth without a parent's request after the records have been maintained the minimum period

specified by the Records and Retention Schedule Public School District Model prepared by the Kentucky Department of Libraries and Archives and are no longer needed to provide educational programs and services unless a longer period of record retention is stipulated in a grant or agreement with another agency. Parents are advised that data contained in the records may later be needed for Social Security purposes. The CCSD retains for an indefinite period of time a record of the student's name, address, telephone number, grades, attendance record, classes attended, grades completed, and year completed.

"Directory Information" is information contained in an educational record which would not generally be considered harmful or an invasion of privacy if disclosed. This information may be released to organizations and agencies whose need for data is connected with student help activities. The parent, guardian, or eligible student currently enrolled may request all or part of the directory information to be withheld. The request must be in writing to the principal of the child's school within 30 calendar days after this notification has been distributed. The written request must specifically state what information may not be classified as directory information.

(4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the CCSD to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW

NOTIFICATION OF RIGHTS UNDER THE PROTECTION OF PUPIL RIGHTS AMENDMENT (PPRA)

2. Mental or psychological problems of the student or student's family;
3. Sex behavior or attitudes;
4. Illegal, anti-social, self-incriminating, or demeaning behavior;
5. Critical appraisals of others with whom respondents have close family relationships;
6. Legally recognized privileged relationships, such as with lawyers, doctors, or ministers;
7. Religious practices, affiliations, or beliefs of the student or parents; or
8. Income, other than as required by law to determine program eligibility.

- *Receive notice and an opportunity to opt a student out of–*

1. Any other protected information survey, regardless of funding;
2. Any non-emergency, invasive physical exam or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of a student, except for hearing, vision, or scoliosis screenings, or any physical exam or screening permitted or required under State law; and
3. Activities involving collection, disclosure, or use of personal information obtained from students for marketing or to sell or otherwise distribute the information to others.

- *Inspect*, upon request and before administration or use –

1. Protected information surveys of students;
2. Instruments used to collect personal information from students for any of the above marketing, sales, or other distribution purposes; and
3. Instructional material used as part of the educational curriculum.

These rights transfer from the parents to a student who is 18 years old or an emancipated minor under State law.

The CCSD adopted policies, in consultation with parents, regarding these rights, as well as arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes. The CCSD will directly notify parents of these policies at least annually at the start of each school year and after any substantive changes. The CCSD will also directly notify, such as through U.S. Mail or email, parents of students who are

scheduled to participate in the specific activities or surveys noted below and will provide an opportunity for the parent to opt his or her child out of participation of the specific activity or survey. The CCSD will make this notification to parents at the beginning of the school year if the District has identified the specific or approximate dates of the activities or surveys at that time. For surveys and activities scheduled after the school year starts, parents will be provided reasonable notification of the planned activities and surveys listed below and be provided an opportunity to opt their child out of such activities and surveys. Parents will also be provided an opportunity to review any pertinent surveys.

Following is a list of the specific activities and surveys covered under this requirement:

- Collection, disclosure, or use of personal information for marketing, sales or other distribution.
- Administration of any protected information survey not funded in whole or in part by ED.
- Any non-emergency, invasive physical examination or screening as described above.

Parents who believe their rights have been violated may file a complaint with:

CHILD FIND FOR STUDENTS WITH DISABILITIES UNDER INDIVIDUALS WITH DISABILITIES ACT, SECTION 504 OF THE REHABILITATION ACT, AND PRESCHOOL

The Calloway County School District (CCSD) has an ongoing Child Find system, which is designed to locate, identify and evaluate any child residing in a home, facility, or residence within its geographical boundaries, age three (3) to twenty-one (21) years, who may have a disability and be in need of Special Education or 504 services. This includes children who are not in school; those who are in public, private, or home school; those who are highly mobile such as children who are migrant or homeless; and those who are advancing from grade to grade, who may need but are not receiving Special Education or 504 services. The CCSD will make sure any child enrolled in its district who qualifies for Special Education or 504 services, regardless of how severe the disability, is provided appropriate Special Education or 504 services at no cost to the parents of the child.

Parents, relatives, public and private agencies, and concerned citizens are urged to help the CCSD find any child who may have a disability and needs Special Education or 504 services. The District needs to know the name and age, or date of birth of the child; the name, address, and phone number(s) of the parents or guardian; the possible disability; and other information to determine if Special Education or 504 services are needed. Letters and phone calls are some of the ways the CCSD collects the information needed. The information the school district collects will be used to contact the parents of the child and find out if the child needs to be evaluated or referred for Special Education or 504 services. Children eligible for Special Education include those children with disabilities who have autism, deaf-blindness, developmental delay, emotional-behavior disability, hearing impairment, mental disability, multiple disabilities, orthopedic impairment, other health impairment, specific learning disability, speech or language impairment, traumatic brain injury, or visual impairment and who because of such an impairment need Special Education services. Children eligible for 504 services include those children in a public elementary and secondary education program who have a current physical or mental impairment that currently substantially limits some major life activity which causes the student's ability to access the school environment or school activities to be substantially limited.

Children eligible for the State-Funded Preschool program include three- and four-year old children identified with disabilities and four-year old children who are at-risk, as defined by federal poverty levels up to 160%. Preschool children eligible for Special Education must have an Individual Education Plan (IEP) instead of a 504 plan to receive State-Funded Preschool program services.

Child Find activities will continue throughout the school year. As part of these efforts the CCSD will use screening information, student records, and basic assessment information it collects on all children in the District to help locate those children who have a disability and need Special Education or 504 services. Any information the District collects through Child Find is maintained confidentially.

The CCSD provides a public notice in the native language or other mode of communication of the various populations in the geographical boundaries of the District to the extent feasible. If you know of a child who lives within the boundaries of the CCSD who may have a disability and may need but is not receiving Special Education or 504 services, please call or send the information to the District's Director of Special Education/504 Coordinator. If you know of a child who attends a private or home school within the boundaries of CCSD, who may have a disability, and may need but is not receiving Special Education services, please call or send information to the Director of Special Education. If you know of someone who may need this notice translated to another language, given orally, or delivered in some other manner or mode of communication, please contact the CCSD Director of Pupil Personnel or the Director of Special Education/Section 504 Coordinator. You may contact either of these individuals at (270) 762-7300. The hours for the Calloway County Board of Education are 7:30 a.m. to 4:30 p.m. and the office is located at 2110 College Farm Road, Murray, Kentucky 42071.

TERRORISTIC THREATENING NOTIFICATION

Our most important function in Calloway County Schools is to provide the safest learning environment possible for all our students and school staff members.

Unfortunately, in recent years, Kentucky's P-12 schools have experienced an escalation of terroristic threats being made by students with intent to do harm to either other students or school staff members. Plainly stated, these are threats being made to shoot people or detonate bombs with lethal intent. In fact, between January 23 and April 30th of the 2018 school year, Kentucky schools experienced (294) terroristic threats that caused widespread fear throughout the school's community and resulted in total disruption to the educational process. In many of those cases, school officials and law enforcement officials were forced to close schools to investigate the threats that had been made. In other cases, school attendance plummeted for days after the threat was made. Many school leaders have said that the emotional, instructional, and financial impacts of these acts are incalculable.

Terroristic Threatening in the second degree is defined in state law (KRS 508.078)

(1) A person is guilty of terroristic threatening in the second degree when, other than as provided in KRS 508.075, he or she intentionally:

b) Makes false statements by any means, including by electronic communication, for the purpose of:

- 1. Causing evacuation of a school building, school property, or school-sanctioned activity;**
- 2. Causing cancellation of school classes or school-sanctioned activity; or**
- 3. Creating fear of serious bodily harm among students, parents, or school personnel**

(For the complete text for KRS 508.078 please see the information of the following text.)

Such threats to our students and school staff are totally unacceptable and will not be tolerated. As a result, the purpose of this letter is to notify all parents and guardians that school district officials (in coordination with responding law enforcement agencies) will pursue immediate legal charges for felony terroristic threatening in the second degree, to the absolute fullest extent of the law, against anyone who makes such threats, including students. Moreover, we will advocate to our highest ability that the prosecution of these individuals be swift, and their punishment be severe.

Our approach to eliminating terroristic threatening in our school and district is strong and unwavering, and as a result, it is imperative that you discuss this critically important matter with your student as soon as possible. School and law enforcement officials are determined to put a halt to these willful acts of terrorism being made toward our students. Please do your part to ensure that your student never becomes a party to such an offense by educating him/her on the seriousness of its consequences.

Together we can prevent this unnecessary, dangerous, and disruptive crime from victimizing our schools. I appreciate your partnership in keeping our school the safest place for your student to learn and grow. If you have any questions or concerns, please contact the Safe Schools Coordinator at 270-762-7300 or your child's principal.
